EDUCATION

CODE INSTITUTE:

QQI Level 6 - Full Stack Front End Development

2023-03 - present

TECHNO TRAINING:

QQI Level 6 - Industrial Electrical Systems

2021-06 - 2021-07

COLLEGE OF FURTHER EDUCATION:

QQI Level 5 - Construction and Computer Design

2019-20 - 2020-06

HIGH SCHOOL:

Leaving Cert 289 points

2017-05 - 2019-06

Ukrainian - Excellent
English - Excellent
Russian - Excellent

WHAT DO I DO?

As a full stack developer, I bring proficiency in both front-end and back-end development, enabling me to design and implement user-friendly interfaces and interactive web applications. Proficient in HTML, CSS, and JavaScript, I leverage frameworks and libraries to enhance functionality. Skilled in database management and API integration, I contribute effectively to building and maintaining robust web solutions. I thrive in collaborative environments and am eager to learn and grow in this dynamic field.

WHY HIRE ME?

I am a proficient front-end developer with a solid grasp of HTML, CSS, and JavaScript. My knowledge extends to using frameworks like React, Bootstrap, enabling the creation of dynamic and interactive web applications. I prioritize clean, semantic code and adhere to best practices for maintainable and efficient development. I excel in cross-browser testing and implementing responsive design for seamless user experiences across devices. A collaborative team player, committed to continuous learning, I stay updated with industry trends, ensuring the application of innovative solutions to complex challenges. My dedication to professionalism and strong work ethic make me a valuable addition to any development team.

EXPERIENCE

TOKYO ELECTRON
Team Lead Senior Engineer
Co. Kildare

JUN 2022 - MAY 2023

- Initiated plans to improve customer relations, quality standards and service efficiency.
- Coordinate with outside vendors for large installs and complex repairs.
- Document repair actions and turn logs into management on a daily basis.
- Established team priorities, maintained schedules and monitored performance.
- Modifying and repair existing equipment.

TOKYO ELECTRON
Equipment Installation Engineer
Co. Kildare

DEC 2021 - JUN 2022

- Identify causes of equipment malfunctions and plan resolutions
- Coordinate with outside vendors for large installs and complex repairs
- Document repair actions and turn logs into management on a daily basis
- Maintain supplies to affect common repairs and order new stock as needed.
- Working in a clean room (FAB), also on construction site (Sub FAB).
- Modifying and repair existing equipment

FRONT END SKILLS

- Proficient in HTML5, CSS3 and JavaScript with a strong foundation in building dynamic and interactive web applications.
- Extensive experience with popular front-end frameworks such as React and Bootstrap, enabling the development of scalable and feature-rich user interfaces.
- Expertise in responsive web design, ensuring seamless user experiences across various devices and screen sizes.
- Collaborative approach to UI/UX design implementation, working closely with designers to create visually appealing and user-friendly interfaces.
- Thorough testing and debugging skills, utilizing tools like Chrome DevTools and writing unit tests for front-end code quality assurance.
- Proficient in version control systems, including Git and platforms like GitHub, for effective code collaboration and version tracking.
- Commitment to accessibility best practices, ensuring web content is inclusive and usable for users of all abilities.
- Ability to optimize web application performance for fast loading times and enhanced user engagement.
- Strong problem-solving skills and attention to detail in order to deliver high-quality front-end solutions.

INTERESTS

aerosoft, construction, interior design, coding, music festivals, drift festivals, photography, gaming, traveling, road trips, customizing cars, car auctions, history, visiting historical landmarks, history podcasting, historical board gaming.

DEALZ
